#### NEWS OF CITY AND COUNTY CONDENSED

Mr. and Mrs. George Graham of Grawfordville, Ind., have arrived in the city, and will be the guests of the former's brother, Jas. M. Graham, for several weeks. They were here three years ago and made many friends who will be delighted to greet them again. Among the visitors to this city yesterday was Walter S. Turner of Mica-

mopy. Mr. Turner brought to market several hundred pounds of pork, which had previously been engaged by Carter & Anderson. He is one of the most thrifty farmers of the county, and aside from that is conducting a market with great success at Micanopy. While here Mr. Turner made The Sun an agreeable call.

Lovers of fine gardens have been attracted by the fine growth of everything good to eat in the garden of Mrs. A. J. Cone, North Arredondo street. This estimable lady, who is of true Southern birth, believes in plenty of the freshest and best in vegetables, and as a result has one of the handmest and most prolific gardens ever een in this section, from which she oplies her table daily.

#### The Sparks Show.

The John Sparks show gave two performances in this city yesterday evening to good audiences, and sustained its previous reputation for giving a clean entertainment. The acts were all neatly done, the wire and acrobatic turns being the leading features. The performing elephant and horses were very pleasing, and the music by the band was a fine feature. Taken as a whole the Sparks show is up to the standard of tent performances and drows crowds wherever it appears.

#### AFFECTION IN JAPAN.

It Is Deep and Lasting, but, as a Rale, Not Oatspoken.

Public demonstration of affection is most repugnant to the good taste of the Japanese, and it is the absence of this which is so generally mistaken for a lack of genuine feeling. I recall one man who was so devoted to his mother (though I doubt whether he could ever have been said to have "talked about" her) that when she died, while he was abroad, his depression was so profound that my husband watched him with nuxiety lest he should commit suicide. Another man said to me, "I rarely speak of my mother, for a foreigner does not understand that a Japanese mother may be just as dear to her son as his to him and by the Japanese it ts not expected that one should utter one's deepest feeling." . That same son fainted with grief when his mothturned rose to make light of a "little dizziness," without reference to its cause.
